The Audi RS 3 Sportback

RS 3

Setting the pace of performance.

Even more powerful and dynamic. An epitome of sporty driving, the all-new Audi RS 3 Sportback takes your driving experience to a whole new level. This is for the statement makers, the giant leapers, the rule rewriters and the ones you only ever read about. The all-new Audi RS 3 Sportback is calling your name. Reserved for the extraordinary.

Say it all. Without saying a word.

The all-new Audi RS 3 Sportback has powerful proportions and expressive details. A wide RS front bumper roars with character with its newly redesigned and distinctive Singleframe honeycomb grille and large air intakes.

Where some make a statement, the RS 3 Sportback makes an exclamation. The compact sportscar comes with a unique, one-of-a-kind statement piece. It's pixel field of 3 x 5 LED segments provides the magic touch – a checkered flag appears in the left headlight as a dynamic leaving and coming home scene, and the RS 3 lettering appears on the driver's side. When driving, the checkered flag lights up on both sides.

Torque of the town.

Standard-equipped with flat, wedge-shaped LED headlights and LED taillights including dynamic turn signal lights, it creates an unmistakable look. Optionally available Matrix LED headlights are available as an option, with darkened bezels that feature digital daytime running lights around their outer downturned angles.

Behind the front wheel arches are new air outlets and once coupled with the motorsports-inspired finishing touches include the redesigned RS-specific rear bumper with integrated diffuser and the RS exhaust system with two large oval tailpipes, the all-new Audi RS 3 Sportback comes alive.

Setting the pace of performance.

The all-new Audi RS3 Sportback is the perfect choice for drivers who demand both performance and luxury.

For those who adore the agile dynamics of Audi. Who stand for responsible and cultivated performance. And even more, who stand for the spirit to perform and the ambition to push things further. Then the Audi RS 3 Sportback is calling your name.

Conquer everything.

Accentuated sportiness with driving dynamics made visible, the interior of the Sportback instills that genuine racing feeling. Redefining high performance from the inside out, numerous elements specific to the RS enhances the expressive look and feel. The 12.3-inch Audi virtual cockpit plus displays the rpms in the form of a bar graph and shows power and torque as percentages.

The rpm display in the “RS Runway” design is new. Here, the values are displayed in the opposite direction in a manner that visually resembles an airplane runway – the highest speed in the foreground and the lowest speed in the background. In addition, the Audi virtual cockpit plus includes displays for g-forces, lap times and acceleration.

RS through and through

Carbon inlay in the instrument panel and RS sport seats with RS embossing and anthracite contrast stitching evoke emotionally charged driving experiences that are controlled thanks to the standard-equipped with a three-spoke RS Sport multifunctional leather steering wheel with a flattened bottom that features built-in, high-quality die-cast zinc shift paddles.

1 - 2 - 4 - 5 - 3

Motion is beautiful. Motion which combines power with elegance is fascinating. To watch. And even more: to feel. With its particular cylinder firing sequence and the odd number of cylinders it makes for a very special rhythm and unique engine sound: 1-2-4-5-3. That iconic track we all know and love. An Audi first, the RS 3 Sportback comes standard-equipped with a torque splitter. It replaces the rear axle differential and the previous multiple disc clutch package on the rear axle. Instead, an

electronically controlled multiple disc clutch is used on each of the drive shafts. The results – greater stability and agility.

The RS Performance mode, created specifically for the racetrack, is another never-before-seen innovation. It uses a specific engine and transmission configuration and is precisely tailored to the semi-slick tires that are, for the very first time, available for the RS 3 Sportback as a factory option.

Technical
specifications

Real magic happens between 2,250 and 5,600 rpm. If you're a real car person, you'll know what that means. The 5-cylinder turbo is back. International engine of the year. 9 times in a row.
